

# Hungary Language Bible Camps Summer, 2019

The Baptist Union of Hungary has requested that International Commission (IC) enlist teams of Believers from English or German speaking countries to lead in about 30 **English / German Bible** camps across their country. The Hungarian government has offered the Baptist Union 46 schools to manage and improve, with a special focus on developing ethics and morals. The Baptist Union is looking to local churches to play a major role in this effort.

After decades of being under communist control, the lack of ethical guidance has left a spiritual and moral vacuum in the lives of young Hungarians. Summer language camps are being planned at many of the schools for social and cultural enrichment and as a means of connecting church members with the students and their families. Camps are being conducted by a Hungarian church, some with, and some without, a school connection.

**You** are invited to make a difference in your world during the summer of 2019 on this cross-cultural adventure. You will see and experience this beautiful country as no tourist ever will: living with a Hungarian family in their home, meeting their friends and family, and not only seeing Budapest, but also large and small towns and villages outside the capital.

You will be trained with special tools and a Bible-based curriculum to teach English / German as a foreign language. You will have your own story translated to use as a way to introduce yourself and communicate your faith. Church members will be there to help as well. In Hungary, you will be provided Hungarian Bibles to distribute to your students.
